## Professional Summary

Frontend Developer specializing in React.js and Next.js with strong skills in HTML, CSS, JavaScript, and Tailwind CSS. Experienced in building 10+ responsive and user-friendly web applications with modern UI/UX practices. Skilled in creating clean, scalable, and high-performance frontend interfaces using React.js, Next.js, and Tailwind CSS while continuously improving development skills and learning new technologies.

## WORK EXPERIENCE

### Antivirus Solutions Website

2023- PRESENT

Built a responsive website for a fictional antivirus software company with a clean and modern user interface. Developed structured sections including product information, inquiry/contact forms, and feature highlights to improve user engagement and accessibility. Tech Stack: HTML, CSS, JavaScript

### InfoEcom - Modern E-Commerce Website

2025,,7 Aug

#### InfoEcom Live Demo

- Developed a responsive e-commerce web application using React.js, Next.js, and Tailwind CSS.
- Built reusable UI components, product pages, cart, and authentication features.
- Optimized frontend performance and ensured smooth responsive experience across all devices.
- Deployed the project on [Vercel](#) for fast and reliable hosting.

### Travel Website (RR-YAW Travel Platform)

- Developed a responsive travel website showcasing popular destinations across India with a modern dark-themed UI.
- Built an interactive 3D image slider with smooth animations and navigation for enhanced user experience.
- Designed clean and reusable frontend components with fully responsive layouts for all devices.
- Tech Stack: React.js, Tailwind CSS, Node.js
- Deployed on netlify--- [Live Demo](#)

2024 - 2025

I have also worked on several other real and clone projects, including a Grocery Paid Web Project for a local store, Hotel Website, Flipkart Clone, Personal Assistant App, and more – showcasing both business-focused and UI-replication skills.
